Re: Request to Remove Equipment  
Hanson Aggregates PA, LLC  
Rock Hill Quarry Operation  
SMP #7974SM1  
East Rockhill Township, Bucks County

Dear Mr. Bowling:

The Department is in receipt of your email dated March 4, 2020, requesting approval to remove equipment from the Rock Hill Quarry site. The Department has reviewed the information submitted and approves the plan for R.E. Pierson to remove equipment from the Rock Hill Quarry site. Should R.E. Pierson decide to change or deviate from the approved plan, R.E. Pierson shall notify the Department and receive approval in writing from the Department prior to R.E. Pierson making or implementing any changes to the approved plan.

Sincerely,

A handwritten signature in black ink that reads "Gary A. Latsha". The signature is written in a cursive, slightly slanted style.

Gary A. Latsha  
District Mining Manager  
Bureau of District Mining Operations

I am sending you this email to request permission to pick up our rolling stock equipment at the Rockhill location. I need to pick up several pieces of equipment listed below. On the days that are agreed upon we will arrive on site at 7:00am, I will have two employees arrive on site and prep the water truck to wet down the roads and area that we will be working in. Our truck traffic and equipment traffic will follow a facility-wide vehicle speed limit of 15 miles/hour or less to reduce associated dust emissions. We will have a pre-meeting with all employees and truck drivers to go over the scope of work we plan on doing so all parties are trained in what our responsibilities are. We will wet down the work areas throughout the day. The equipment will be moved from the staging area to the wash area and be washed off with water using the onsite water truck. After the equipment has been cleaned it will then proceed down to the lower area to be loaded onto the lowboys. After the equipment is loaded onto the lowboy the truck will be washed down along with the equipment it is carrying. At no time in the cleaning process will equipment be cleaned using leaf blowers or compressed air. The trucks will be escorted in and out of the quarry as per township agreement. We will be mindful of all roadways to be kept clean at all times. Once all details are in place we will be starting on March 9, 2020 this process could take up to 4 weeks if at that time more time is required we will request additional time from the dep. This is to include, but not be limited to the following.

Equipment #	Description	Group	
1944	Cat 245 Excavator	Cat Rock Trucks	869, 2896, TK09, 1002
2868	Komatsu 1250 Excavator	1112	Cat 972 M Loader
2736	Komatsu 750 Excavator	3006	Cat 988G Loader
