

8/17/2020 Email:

You are receiving this email from the Pennsylvania Department of Environmental Protection (DEP) because you have previously expressed interest in the Ridge Run PFAS HSCA Site located in East and West Rockhill Townships, Bucks County.

UPDATES:

- DEP is committed to protecting public health at the Ridge Run PFAS HSCA Site (Site) and will continue bottled water deliveries to those homes where concentrations of PFOS and PFOA exceeded the Health Advisory Level (HAL). Residents receiving bottled water may notice that the physical size of the bottles of water delivered may vary during this period, as supply chains adjust to the coronavirus (COVID-19) outbreak. The total volume of water in each delivery will remain constant.
- DEP and its contractor, Tetra Tech, will continue to perform the necessary operations and maintenance of the filtration systems that have been installed at the Site.
- DEP and Tetra Tech performed surface water sampling at the Site following Tropical Storm Isaias, to determine the effect large storms have on the migration of PFOS and PFOA at the Site.
- DEP is planning on installing additional monitoring wells at the Site in Fall 2020.
- As of March 13, 2020, DEP's Southeast Regional Office remains closed as part of Governor Wolf's announced COVID-19 mitigation measures. DEP staff are teleworking and have access to e-mail and voicemail. Please respond to this email with any questions that you have.

DEP continues to update its project website at <http://dep.pa.gov/ridgerun>

If you would like to be added to this distribution list, please contact [RA-EP-SEROECB@pa.gov](mailto:RA-EP-SEROECB@pa.gov) . Please include "Ridge Run Updates" as the subject of your e-mail.

Thank you for your continued interest in DEP's work at the Ridge Run PFAS HSCA Site.

Sincerely,

Colin R. Wade | Environmental Protection Specialist  
Environmental Cleanup and Brownfields  
Department of Environmental Protection
